Show Wins/Awards:

2013 Virtual Show - Best Buck of Show

Plymouth is a beautiful buck and the foundation of our herd. We have been extremely pleased with his kids; all very dairy type with exceptional udders and high milk production; structurally sound, with Plymouth himself looking fantastic at 10 yrs old! Plymouth passed away at 12 1/2 years old.

Jireh's Priceless Pearl AT

Official 1-day-test (daughters):

Golden Glow is a POLLED buckling by one of the best GG bucks in England. He will be used to strengthen the breed and add the polled genetics. His dam is a daughter of Plymouth and has a well attached udder with good production. Pureglow's dam/granddam was a breed winner.

Official 1-day-test (daughters):

Amethyst-1st lact. - 5 mo. fresh - 5.2 lbs 3.5%

Luckyboy was a lovely buck who produced several nice daughters for us. He was used to darken the pale coats and strengthen udders. Rear pasterns were softer then we liked, and he was so related to the herd that he was used very little unfortunately.

Bred to:

Golddust is a smaller Guernsey doe, short haired, and very sound. Due to not having an unrelated buck she was left open until a 3 year old and had a lovely precocious udder! Now mature and on her 3rd freshening, she milks a good gallon a day. Udder is well attached and holding up extremely well.
